# WE WANT TO MAKE IT EASY FOR YOU

When you work with us, we see you as a business partner. We don't want to sell you "our" solution, we want to find a solution that fits you. That is why we always ask you a lot of questions about your project. We want to make your challenge easier to manage for both you and us. You are the expert on your process and your production. Therefore, it is always in cooperation with you and based on your information that we work on your solution.

## CREATING SUCCESS TOGETHER

Newtronic is about people. It is vital that our employees believe in Newtronic and are happy to work here. It is equally important that our business partners are happy to do business with us. That goes for those who produce our products as well as for you, who are using our solutions. We ensure that through openness, honesty and dialogue.

Our focus is always **THE SOLUTION**. Often, we can find a good solution together with our business partners. But sometimes we can't supply the optimal solution. Therefore we have an open partnership with a range of businesses that are able to supply the solutions, that we can't.

We distribute electrical heating products and -solutions, sensors, controllers, heat sinks and thermally conductive materials. Our business is divided into four areas:
